#### PRINT READING EXERCISE #4

#### QUESTIONS

1. Calculate distances "A" to "D"
2. How many surfaces require finishing?
3. What tolerance is permitted on dimensions which specify a certain tolerance?
4. How many holes are there?
5. What is the maximum center-to-center distance between the holes?
6. What surface finish is required?
7. What is the maximum permissible wall thickness at the larger hole?
8. What would be the minimum permissible wall thickness at the smaller hole?

1A	5
1B	6
1C	7
1D	8
